

Chico Outsiders Membership Policy 2011:

Why have members?

Maintaining an official membership list allows us build a support network for outdoor recreation in our region. In particular, our members are expressing financial support for disc golf facilities in Chico. The Outsiders, as a California non-profit, have assumed some financial responsibility for maintaining these facilities and members allow us to ensure a base level of financial support exists to meet those commitments. Two membership levels exist, and each level has specific benefits and opportunities.
